

Physical resources

Suggested improvements to equipment and facilities from caregivers include using IT in classrooms (19%), improving sports facilities (19%) and updating classrooms (19%). Teachers suggest updating classrooms (42%) and more computer rooms (24%).

Q. Please indicate how satisfied you are with the following resources at HBHS. * % Extremely satisfied / satisfied

In summary

Key findings

- Significant positive shifts in perception noted in 2009 has consolidated in 2014:
 - Respect for the Headmaster remained high (driving force behind the high performance of the school).
 - Strong sense of belonging remained, with a sense of pride in association with the school evident.
 - School values and culture remained highly regarded.
 - The structured management, review and implementation system remained well endorsed.
 - Clear expectations of teachers and students were evident and expected.
 - The school remained a well structured, safe and positive learning environment.

Points to consider

- Accommodating growth
 - Increased student roll.
 - Ongoing maintenance and communication around mid- to long-term plans for physical resources.
- Information Technology
 - Challenge to provide a traditional education through cutting edge technology.
 - Continue to include a component of modernisation in ongoing maintenance and upgrade and teaching resources.
- Opportunity to represent
 - Pride in school evident from teachers, caregivers and students.

Thank you
